[Delay with construction valuations](#)

HomeStart is currently receiving high levels of Build Packs. As a result, turnaround times for construction valuations have been affected.

We are currently working on a turnaround time of 5 - 8 business days for construction loan valuations to be ordered by our Loan Processing Team. All valuations will be prioritised by settlement dates.

To assist us in avoiding delays in future, please remember Build Pack documentation should be submitted as per the instructions on the Construction Checklist and accompanied by the completed checklist. This is only once pre-approval has been given, after confirmation with the customers that they have completed their final selections/variatio ns and they have had their final interview with the builder. All external quotes must be provided as a supply and install quote.

Thank you for your patience and understanding during this period.

Regards,
HomeStart Broker Team
