

# Connective Advance

## Connective Advance & IDyou

To ensure all Connective Advance affiliated brokers can continue to introduce loans at a time when face-to-face meetings with borrowers remain a challenge, Connective Advance has partnered with national legal firm MSA to introduce the IDYou app to support remote Verification of Identity.

The IDYou service is compatible with recent regulatory clarification regarding KYC and VOI by both [AUSTRAC](#) and [ARNECC](#).

To view how a remote VOI is conducted through IDYou, please [click here](#).

To go ahead and **register** with IDYou, please [click here](#).

Once registered, you will be issued with an ID and password followed by a link to download the app via Google Play or the Apple store.

IDYou is rapidly becoming one of the most widely referred VOI tools across the industry between banks and non-banks and we are pleased to now be able to extend this resource to all of our introducing business partners.
