

Hi,

We have made changes the below changes to our policy:

- Industry restrictions: we have removed all our previous industry restrictions, including Construction, which means we're now able to accept income from ALL industries across ALL states. Subject to our normal means of assessment.
- Holiday letting income: we now accept income from holiday letting properties, such as Airbnb, shaded at 50% and then appropriately taxed. We will require 6 months of evidence by way of bank statements with identifiable rental credits, or 6 months of statements from the managing agent.

Can you please update your system accordingly? I will send around the updated matrix as soon as it's available.

Please confirm once updated.

Cheers

Kelly
